WHY TRUST MODERN'S WORK SUPPORTS... Simple... Because we use them!

Modern's Toolmakers support over 100 CNC machines. After struggling with over priced, poor performing work supports, they designed their own. We believe that Modern's work support is superior to all other manual work stops on the market and would like to share them with you!

Problem

(competitors product)

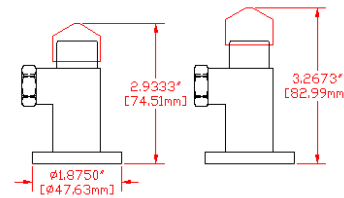

- Cost too high.
- Product does not perform.
- Work Support fell apart during normal use.
- Limited Configurations.
- Unable to Support the 4th Point.

Solution

(Modern's Work Support)

- Modern's price up to 40% below competitor.
- Rugged and built to last in tough production conditions.
- Construction tested in a vise, competitors were crushed beyond use. While Modern's work stop was not affected.
- Modern's Work Supports features 2 sizes with several head options.
- Designed a small work support to fit application.

Custom size, bolt pattern and head configuration available upon request.
